

International Conference **MICROBIOME ENGINEERING**

Joseph B. Martin Conference Center
Boston, MA • November 4-6, 2018

The Society for Biological Engineering (SBE) invites you to participate in the **International Conference on Microbiome Engineering (ICME 2018), November 4-6, 2018 in Boston, MA**. ICME 2018 explores important applications of microbiome engineering, bringing together experts from industry and academia worldwide to discuss the challenges in microbiome engineering and the future of the field.

SESSION TOPICS INCLUDE:

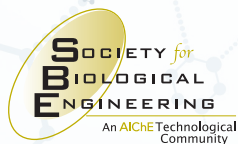

- Engineering of the organism and tools to manipulate it
- Engineering and modeling of microbial communities
- From genome-scale to community-scale models
- Computational models for design
- The role of engineers in the microbiome field [Panel Discussion]

Submit Your Abstracts by August 6, 2018.

ORGANIZED BY

CONFERENCE CHAIRS

- Vanni Bucci
*University of Massachusetts
Dartmouth*
- Stephanie Culler
Persephone Biome
- Timothy Lu
*Massachusetts Institute
of Technology*
- Bernat Olle
Vedanta Biosciences

ORGANIZING COMMITTEE

- Elhanan Borenstein
University of Washington
- James J. Collins
*Massachusetts Institute
of Technology*
- Jeff Gore
*Massachusetts Institute
of Technology*
- Costas D. Maranas
Pennsylvania State University
- Daniel Segrè
Boston University
- Jeff Tabor
Rice University
- Ophelia Venturelli
*University of Wisconsin-
Madison*
